

Baby Love

For Beginner Toymakers

Please reference your Toymaker kit for basic instructions & 3D block templates.

- Using your empty pots, mix about a 1/4 container of:
 - Rosy Red + Buttercup Yellow + White = Baby Rose Pastel Pink
 - Buttercup Yellow + Mary Blue + White = Pastel Meadow Green
 - Mary Blue + Rosy Red + White = Pastel Hazy Purple
 - Rosy Red + White = Pastel Rosy Red
 - Mary Blue + White = Pastel Mary Blue
 - Buttercup Yellow + White = Pastel Buttercup Yellow
- Be sure to reserve some of the original paint colors.
- Set your blocks, end grain 'up', in a 3x3 grid, mimicking the pattern guide.
- Paint both end grain sides of the blocks in the same colors as the visual guide.
- Set each block on an unpainted side to dry.
- Once dry, sand the edges to get a crisp edge. Wipe off any dust.
- Apply a star sticker to both colored sides and paint white. Let dry.
- Seal the star sides of the block. Let dry.
- Apply the Letter Stencils on each block.
 - If you have an animal/holiday theme, apply those images to the opposite side instead of the letters.
 - Orient the images, so the star side is on the top and bottom.
 - Use white paint to create the letter/animal stencils. Let dry.
 - Immediately remove and wash the stencils after each use.
- Apply the pattern stencils to the last remaining side of the block.
 - The pattern color is going to be the same as your end grain color! In this case, the rainbow order is reversed. Reference your visual guide to stay on track!
 - Note: If you do not have an animal/holiday theme, skip this step.
 - Themes come with three pattern stencils. You can choose to apply up to three of the pattern's colors before the letters. Wash and let the stencils dry while you do the letters and animals. Make sure they are completely dry before finishing the last colors.
- When finished, check each block and use your detail brush or sandpaper to touch them up if necessary.
- Seal the last four sides.
- Let dry 72 hours before gift wrapping or play.
